

Mathematics  
Lesson 15 of 15

# **Unit 6: Fractions and Decimals**

## **Fractions and division**

### **Independent Task**

Mr Whitehead

Use these two division expressions to write two division stories.

Include a drawing of each problem.

Solve the division with quotients that are:

fractions

decimals (use short division)

mixed numbers (if appropriate)

Write a full sentence to conclude the story.

$$7 \div 3$$

$$11 \div 5$$
