

Five in 5

25.01.21

Problem of the day

Ben's number robot either adds or subtracts 10 from the number he puts in.

Complete the table to show the numbers that could come out of his number robot.

1. $1600 - 400$

2. $36 \div 6$

3. $16 \times ? = 0$

4. 14×8

5. $3742 + 158$

Number in	+10	-10
