

Five in 5

26.01.21

Problem of the day

1. $800 + 700$

Eggs are sold in boxes of 12.

2. $129 \div 8$

The egg boxes are delivered to stores in crates.

3. 11×8

Each crate holds 9 boxes.

4. $73 \div 10$

How many eggs are in a crate?

5. $4627 + ? = 8378$
