

28.1.21.

Measurement.

LQ: To recognise that 1 metre is a unit of measurement.

Are you ready to be a detective? Can you measure different objects around your house to find out if they are shorter than 1 metre or taller / longer than 1 metre?

Draw the object and write the name of it in the table below. The first one has been done as an example.

Shorter than 1m.	Taller / Longer than 1m.
