

9.2.21.

Measurement.

LQ: To compare capacity using non standard units.

Ready Steady, let's get wet!!! Ask your grown up to help you with this activity as you might get a bit wet!

Task: Using a cup as your unit of measure, estimate how many cups it will take to fill different objects then measure it using your cup

The first one has been completed for you as an example.

Object	Estimate (in cups)	Amount of cups
Bottle	5	7
